

# CUSTOM JACKETS

Sew Sporty jackets are engineered for versatility and comfort. The innovative functional design incorporates performance fabrics making Sew Sporty the best choice for custom rowing jackets.

The standard features include: **1.** A gusseted back shoulder that allows freedom of movement. **2.** A vented upper back to allow extra heat to escape. **3.** An extended lower back tail. **4.** Two zippered front pockets.

The lower back is lined with a soft lightweight fleece for added warmth. The upper back is lined with mesh for breathability. The lower front, sleeves and upper front are lined for a soft comfortable feel. An elasticized draw cord hem locks in warmth. The cuff can be made with either nylon knit rib or a velcro closure cuff to seal out wind and rain. The collar also has several options: nylon knit rib, the same material as the jacket, or a combination of the two.

**STYLE A**

**STYLE B**

*Storm Flap covering front zipper*

*Our jackets are available in 3 different fabrics:*

- 1. 200 denier** coated oxford nylon. A popular affordable choice for a water resistant jacket. Sleeves are lined in a mesh fabric for added comfort.
- 2. HydroTex-Lite** A nylon fabric that offers a superior water repellent, windproof jacket. The fabric is 100% nylon, yet is soft and supple. Sleeves lined with mesh for added comfort.
- 3. HydroTex-Ultra** A waterproof breathable fabric system, to keep you dry and comfortable both inside and out. This jacket is lined with a soft taffeta and is standard with a new redesigned stowaway hood.
